IMPORTANT NOTICE

PLEASE READ BEFORE COMPLETING THE ATTACHED REGISTRATION FORM

The Calgary Board of Education offers a wide selection of programming choices for students, however, the CBE receives government transportation funding only for students in the regular, special education and language programs. For students who choose to attend other alternative programs or programs of choice, please note the following limitations on transportation services. Please ensure you consider this factor carefully before choosing to register your child(ren) in one of these programs.

Congregated Stops

Certain CBE programs have limited charter transportation service and parents are responsible to ensure their children travel safely to and from congregated stops. Congregated stops may not be located in each residential district or within walking distance for students. Congregated stops are located based on factors such as ease of access for the bus, public space for students to gather and available parking for parents. Requests to add or move congregated stops will not be considered. Congregated stops apply to students in the following programs:

Alice Jamieson Girls School
Science Schools

Piitoyis Family School
Montessori Programs

Arts-Centred Learning
Traditional Learning Centres

Calgary Transit

For some programs of choice, instead of providing charter transportation, the CBE will subsidize monthly Calgary Transit Youth bus passes. Students in the following programs will be required to use Calgary Transit and will be entitled to claim a Calgary Transit Bus Pass Rebate:

Juno Beach Academy
National Sport Development

National Sports Academy
School of Alberta Ballet
