Family opportunities in support of a child's learning success.

Family Oriented Programming

Calgary Board of Education Family Oriented Program Facilitators are a part of your child's school learning team. Family involvement contributes significantly to young children's learning and development.

Family Oriented Programming Facilitators and other members of the Enhanced Services Team will help you by providing information and strategies on:

- social skills
- language and literacy development
- fine and gross motor skill development
- behaviour management

Family Oriented Programming Sessions:

- will build on your family's strengths.
- will help you to become more involved with your child's learning.
- will help you to learn strategies to support your child to learn, behave and play in healthy, positive ways.
- will give you opportunities to network and share with other families.

Family Oriented Programming:

- are 90 minutes each.
- can occur at schools, libraries or other community facilities.
- are arranged to best fit your family schedule (morning, afternoon or early evening).
