

## Addendum to CBE Goal 2 (Provincial Goal 1)

### Student Health Partnership (SHP)

Following is additional information to the strategy identified on page 10 ("Support schools in matching student need to the most appropriate service provider."):

#### Purpose of SHP:

To provide school-based programs that support students in participating fully in their educational programs and achieving their learning potential.

To build better integrated and more accessible services and supports for students with identified learning/health needs.

#### Actions:

- Support schools in matching student need to the most appropriate service provider.
- Review provincial and regional evaluation data to ensure that services delivered result in improved educational outcomes for students.
- Ensure that system priorities for service delivery are based on assessed need.
- Align CBE policy, Alberta Learning Standards and SHP provincial guidelines with a clear vision for service delivery.
- "Provide staff with training in administering health-related support services to students."
