

Transportation Information for Alternative Programs

As per Calgary Board of Education Administrative Regulations, students registered in alternative programs are eligible for transportation if they live within the designated area of the school housing the alternative program. In registering for an alternative program, you acknowledge that while you live in the designated area, upon registration and payment for transportation, service will be provided for your elementary school child via yellow school bus transportation. For students in middle/junior high schools, service may be provided via yellow school bus or Calgary Transit, please ask your designated school for further details. Should you reside outside the designated area for a particular alternative program, transportation will not be provided by the CBE.

Registration for transportation is a critical component contributing to the successful planning of routes and stops. Registering for transportation ensures that your address will be included in transportation routing and stop planning decisions.

In the event that a new location is established for this program and your community is re-designated to the new school location, your child will be required to attend the new school. If a parent wishes for their child to remain at the current location and they are accepted to remain based on the availability of space and resources, they will be considered out of boundary students.

Transportation services are not provided for out of boundary students and therefore transportation becomes the responsibility of the parents/guardians.

Please keep this for your information
