### issue |

The opening of the new Evanston School provides an opportunity to review the designation of students living in Evanston in K-GR9. Keeping the community students together with the fewest number of school transitions is paramount in our planning.

### opportunity |

The Calgary Board of Education would like to consult with stakeholders from the community to:

- Share accommodation possibilities for the community
- Gather stakeholder feedback on the possibilities
- Talk about next steps

### meet |

You are invited to attend a parent meeting to engage in the conversation with Planning & Transportation and the Area II Office about the possibilities.

If you are unable to join us the information presented at the open house will be posted to <http://www.cbe.ab.ca/schools/building-and-modernizing-schools/Pages/default.aspx>.

We hope to see you there.
