In addition to providing our schools with helpful program options, Calaway Park has introduced a Student Work for Credit Program; giving students the opportunity to gain high school credits and valuable work experience. ## **6.0 PUBLIC QUESTION PERIOD**

There were no questions from the public.

## **7.0 STAKEHOLDER REPORTS**

### **7.1 MS. E. POLEGATO, PARENT REPRESENTATIVE FROM COLONEL WALKER COMMUNITY SCHOOL**

Ms. E. Polegato, Vice Chair of the School Council for Colonel Walker Community School, reported that the Inglewood Community Association (ICA) and the greater community of Colonel Walker have made the unanimous decision to reject the proposal to bring the Piitoayis Program to Colonel Walker School. She noted that copies of this decision were distributed to Trustees and submitted for the record. The ICA came to the conclusion that the rapidly growing Piitoayis Program, however laudable, would quickly displace the Regular Program at Colonel Walker School, which has been recognized as a key anchor in designing and maintaining a vibrant community. Ms. Polegato noted the position of the Colonel Walker School parent group, which has also been submitted to Trustees and for the record, is that failing adequate time, process, response to questions and an unwillingness to discuss the future for children of Colonel Walker School, it would be irresponsible to accept or reject the Piitoayis Program or any other program under these circumstances; and, as parents who are still committed to public education, they are not prepared to make an uninformed decision that would impact other peoples' children and their own.

Ms. Polegato stated that these decisions were made with a great deal of introspection. It has been a difficult time for parents, the community and the CBE administration, and the challenges that are being experienced at Valley View School and the Piitoayis Program are recognized. She noted that in an earlier meeting between Dr. Croskery and parent and community representatives, Dr. Croskery assured those present that if parents or the community rejected the proposal he would not further pursue recommending the placement of the Piitoayis Program at Colonel Walker School. This assurance has been comforting for them.

**7.2 MS. C. TAYLOR, REPRESENTING THE CALGARY ASSOCIATION OF PARENTS AND SCHOOL COUNCILS (CAPSC)**

Ms. Taylor provided comments on behalf of CAPSC about the long-range student accommodation master planning process, which is currently underway. She said that the dialogue that took place on the Process Review Team was very informative and creative and she personally felt a true sense of commitment by CBE staff to understand the parents' perspective on the issues. Ms. Taylor commented that CAPSC is of the belief that the proposal addresses some of the key issues that were raised by the Inner City Schools' Coalition last year, particularly around planning transparency and the information parents have access to early in stages of discussion about the future of schools and programs. CAPSC would appreciate the opportunity to be involved as the proposal evolves and in a trial run if the proposal moves ahead.

Ms. Taylor stated it is the assumption of CAPSC that program closures, not just school closures, will be part of this process; and if this is not the case then they suggest that it should be. They also believe there is significant value in addressing various accommodation issues on both a geographical basis and a cluster basis, when reviewing proposed closures, new programs, movement of programs and new schools. She stated that CAPSC recognizes there will always be parents who will be unhappy with the final outcome and that no particular process will satisfy everyone, but they are of the belief that this process demonstrates a best effort to address the many accommodation issues facing the school board. They also recognize that the provincial government has the capacity to intervene in the decision making process. CAPSC invited the CBE to make use of their organization to deliver accurate information about these occurrences to their member schools and parents.

In conclusion, Ms. Taylor noted their request that the name of the document be changed, to shorten it. She pointed out a key concern they have is in the area of risk, in that this process assumes advanced skills and community facilitation. CAPSC encourages that the CBE give thorough consideration to how it will ensure that the key people facilitating these processes have those skills.

**8.0 GOVERNANCE: POLICY DEVELOPMENT AND MONITORING**

**8.1 ACTION ITEMS**

**8.1.1 Consideration of Program Closure – Regular Program at Westgate Elementary School**

Chief Superintendent Croskery stated that as with all program considerations in areas like this there is never absolute consensus or unanimity in where the Board should take action. He pointed out that there has, however, been a significant amount of consultation over the past year or two, conducted mainly under the auspices of Mr. G. McKenzie, former Director of Area IV. While it is believed there is some significant consensus, that the numbers in the Regular Program are not very high; and while there may be some members of the community who would say it is not inappropriate that there be some consideration given to the future of that program, not everyone would agree on one outcome.

Trustee Cochrane advised that in the absence of Trustee Lane, she would provide a summary regarding the issues that were raised through submissions to the Board. She noted that a number of written submissions had been made by parents and community members, the School Council, the Westgate Community Association, the area MLA, the ward Alderman and from the city's municipal office. Trustee Cochrane provided a synopsis of the issues

that were raised in those submissions regarding the potential closure of the English program at Westgate Elementary School, as follows.

- Some submissions question the safety, with respect to students who will be required to cross Bow Trail.
- Concerns were expressed that CBE's census and demographic data may not be accurate.
- Concerns were expressed about Westgate's school administration turning away English program students.
- Concerns were noted regarding the possible change from a dual track school to a single track, i.e., students unsuccessful in French Immersion will not be able to move into an English program in the same school; French Immersion and English should co-exist, not be isolated; there should be choice of French and English within a community; and, families with one child in French Immersion and one in English will now have children in two schools.
- Concerns were expressed about:
  - The potential for a 'curriculum gap' as a result of multi-grade classes moving into single-grade classes;
  - Required fees for bus and lunch supervision;
  - Not enough clarity given by CBE staff at April 21<sup>st</sup> public meeting, in response to questions;
  - The stability of Wildwood School;
  - Lateness of CBE addressing declining English Program at Westgate;
  - Expectation of dual track program by incoming Sonshine Community Services;
  - Perceived "roadblocks" put in place preventing establishment of English pre-school program at Westgate;
  - Closure of English program at Westgate will not affect CBE's utilization rate.
- Concern that the process for consideration of closure was communicated primarily to parents of students currently enrolled at Westgate School and not to the broader community, and timelines too tight for full-fledged community involvement.
- Suggestions were made to boost the enrolment of Westgate School as follows:
  - Allow non-French Immersion students to ride on the French Immersion buses to Westgate from new communities.
  - Designate Westgate as a receiver school for one of the new communities in west Calgary.
  - Give the community one more year to address issues and come up with innovative solutions.
  - Designate Westgate as a French as a Second Language school in preparation for the new provincial second languages initiative.
  - Start a junior kindergarten program at Westgate.
  - Move English program children from other schools in the area to Westgate and establish an alternative program in one of those schools.
  - Change Westgate's catchment area.
- Additional questions that were raised in the submissions are summarized as follows:
  - Involvement in decision-making if a new alternative program is proposed for Westgate;
  - If a new alternative program comes in, and uniforms are a requirement, would that be applicable to both programs?
  - How would a new alternative program succeed, since the dual track did not? How will set-up of new alternative be paid for?
  - What will happen to the equipment that was used for Westgate's English Program?
  - Who pays for the move of the English Program?

Trustee Cochrane pointed out that all Trustees have received and given consideration to all the submissions that were received. She asked the Administration to respond to a concern that was raised by the Westgate Community Association about not being informed until May 16<sup>th</sup> that the Board of Trustees would be giving consideration to the closure of the Regular Program at Westgate School at this meeting.

Deputy Chief Superintendent Hubert noted that she had investigated the matter and that information was published in the school newsletter on May 3, 2005 and distributed to the school community through students; it was also published on the website of the school. She pointed out that a member of the Westgate Community Association sits on the school council and would have been privy to this information. In addition, the school newsletter was presented to the community liaison person on Friday, May 13, 2005.

MOVED by Trustee Fawcett:

1. **THAT the Minutes of the Public Meeting of April 21, 2005 attached to the report as Attachment #1, in the form as submitted with the Agenda for the Regular Meeting held May 17, 2005, be approved by the Board of Trustees, and**
2. **THAT the report be received for information and for the record, in the form as submitted with the Agenda for the Regular Meeting held May 17, 2005.**

The motion was  
CARRIED UNANIMOUSLY.

MOVED by Trustee Cochrane:

**THAT the Regular Program at Westgate Elementary School be closed effective June 30, 2005.**

Trustee Cochrane provided opening remarks, noting that she puts forward the motion for closure based on her belief that at this point in time it would not be beneficial to continue the operation of the regular program at Westgate Elementary School.

Trustees debated the motion and issues that were discussed included access, safety, busing and lunchrooms and associated costs. A trustee expressed her belief that the projected enrolments do not warrant a continuation of the Regular Program, and noted that concerns of stability are valid and it is important that we maintain our Regular programs in addition to strengthening our alternative programs. A comment was made that there is significant opportunity for these students, in that they will have a larger peer group. A concern was noted about what the program might look like if it is not closed this year. It was noted by a Trustee that closure of the Regular Program at Westgate Elementary School would be in the best interests of the students and of the school system.

Chair Dirks called for the vote on the motion.

The motion was  
CARRIED UNANIMOUSLY.

MOTION ARISING:

MOVED by Trustee Ferguson:

**THAT the Board of Trustees directs the Chief Superintendent to provide a report as soon as possible on the implications and impacts of providing transportation for those students from the Westgate community who are ineligible for transportation and who would be required to cross Bow Trail, until such time as an overpass walkway is constructed over Bow Trail.**

Trustee Fawcett noted there would be financial impacts, and he questioned whether the intent of the motion is to get a report on the financial implications or a report on safety issues? Trustee Ferguson stated that because the City of Calgary's intentions are unknown at this time with respect to Bow Trail, the motion intends to provide a more safe and secure method of crossing to their designated school for some students, and to ask for information about the associated costs to the Board.

In response to a question, Trustee Ferguson provided further clarification, noting that the intent of the motion is to make sure that not only is there space made available on the bus for these students, but that at least the bus fee or the lunchroom fee be waived.

Trustees gave debate to the motion and remarks were made about the Board of Trustees governance model and the proposed intent to develop value statements on a broader basis. A belief was noted that if the motion was approved it would set a precedent for any school closure consideration. A trustee noted the belief that this is not the best way to address safety issues for our students, and stated that the responsibility to get students safely to and from school does not rest solely with the school system. Safety is an issue of extreme importance and it is expected that the CBE's Administration will continue their work in this matter.

Chair Dirks called for the vote on the motion.

The motion was  
DEFEATED.

**8.1.3 Deployment of Alberta Education's One-Time Funding for School Curriculum**

Superintendent Drysdale provided a brief review of the contents of the report and responded to questions posed by trustees. Discussion focused on the implementation of the new elementary Social Studies curriculum and associated costs, and on the upcoming second languages initiative for grades 4-9, which will be a major financial burden for schools. It is being anticipated throughout the CBE that these one-time funds will be available for this purpose. Superintendent Drysdale noted that the second language initiative is being implemented in the 2005-06 school year as a pilot, and we have approximately 72 schools that are already into piloting the program; full implementation of this program is expected by 2006-07.

MOVED by Trustee Bazinet:
