

High School Outcomes-Based Assessment in MyCBE Web vs. PowerSchool Mobile App

The table below outlines the key differences between accessing High School Outcomes-Based Assessment (OBA) information in MyCBE via a web browser versus the PowerSchool mobile app. While both platforms provide essential details like attendance, schedules, and current course grades, MyCBE (web browser) offers more comprehensive access to school fees, additional platforms, grade history, and assignment details linked to system outcomes. In the CBE, we encourage the use of [MyCBE](#) to fully access grades and learning progress.

Note | Within the PowerSchool mobile app, CBE System Outcomes are referred to as “Standards.”

Feature	Web Browser	Mobile App
School Information		
Attendance Records	✓ Yes	✓ Yes
Schedule & Courses	✓ Yes	✓ Yes
Teacher Name and Email	✓ Yes	✓ Yes
School Fees and Forms	✓ Yes	✗ No
