

Alice Jamieson Girls' Academy

Is the All Girls Program the Right Choice for My Child?

A successful student demonstrates:

- a willingness to become a confident leader
- a broad perspective on non-traditional career opportunities for females
- an understanding of the lived experience of women in local, national and global cultures
- the preference to working in an all-girl environment
- an interest in science, technology, engineering and mathematics (STEM) learning
- an interest in curriculum that highlights how women contribute meaningfully to our society and lead change
- a willingness to learn through making connections across many subjects

Characteristics of the All Girls Program

- Emphasize girls' abilities to become independent and empowered leaders in school and in their greater community.
- Provides girl-focused approaches to learning
- Intentionally emphasizes cooperative and inquiry-based learning
- Increases exposure to science, math and technology
- Builds on girls' strengths to improve self-confidence, personal growth and understanding of the social construction of gender
- Provides opportunities for mentorship networks among members of the student body and with successful women
- Incorporates a focus on character in all aspects of the curriculum
- School uniform
