Q2: In which new school project(s) are you interested?

Copperfield Elementary,

NewBrighton/Copperfield Middle - Dr. Martha Cohen
School

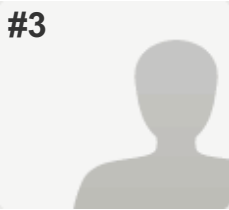

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

It appears like everyone in copper field falls into the walk zone. Will the school be able to accommodate all the kids in the community?

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

If the school can't accomadate all kids that fall into the walk zone how will they determine who gets to attend?

Number of children	4
Grade of child(ren)	[REDACTED]

Q2: In which new school project(s) are you interested?

Copperfield Elementary,
NewBrighton/Copperfield Middle - Dr. Martha Cohen
School

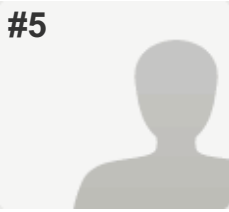

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

We live on [REDACTED] and I feel that the new middle school is too far of a walk for my children. In -30 degree temperatures, the distance would cause frostbite. It would take our child 20-30 minutes to walk that far. Crossing McIvor Blvd would also be a concern, as crosswalks are poorly marked or not marked at all and the speed of traffic on McIvor would make it extra dangerous.

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

10 year old children can not be left home alone, so why would they be able to walk such a distance.

Q2: In which new school project(s) are you interested?

Copperfield Elementary,

NewBrighton/Copperfield Middle - Dr. Martha Cohen
School

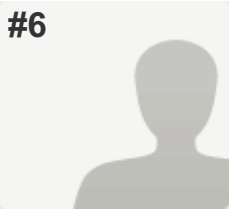

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

The intersection of McIvor Blvd and New Brighton Way SE, will traffic lights be put in to make that intersection SAFE for children to cross. Currently, pedestrians crossing there are NOT safe. I've seen too many 'close calls' for adults. Children would be a whole other matter.

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

ENSURE that children having to cross McIvor Blvd have SAFE intersections to do so.

Copperfield Elementary,
NewBrighton/Copperfield Middle - Dr. Martha Cohen
School

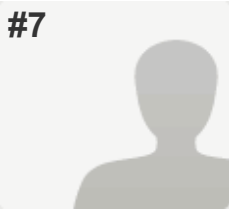

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

Will there be a controlled crossing area for the students from Copperfield that will need to cross McIvor Blvd?

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

Distance is a consideration that should be thought of when looking at the winter months. For those on the far side of Copperfield, the walking distance seems extreme as an expectation for a child entering grade 5 or 6.

Grade of child(ren)	[REDACTED]

Q2: In which new school project(s) are you interested? Copperfield Elementary

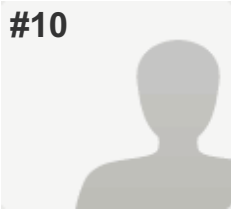

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

It looks like all of Copperfield is in the proposed walk plan. With Copoerfiels beig such a large community and the school only being grades 1-4 were the young ages considered? I can't see my 6 year old daughter walking up to 8 blocks to school and home.

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

The age group. Grade 1-4 is way too young to be walking so far.

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

do you guys even consider testing the distance in a very bad weather . what I meant is please walk from the farthest distance in a very cool winter day and feel what we are going through before you make the plan final.

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

winter remains in this country for the most of the year. when there is snow, ice and windchill, weather is below 10 it is truly very difficult to walk the children to the school. specially for us who doesn't drive. we have to reach 2 places for dropping 2 kids in 2 different school. you guys should consider the safety of the kids during winter. we don't mind walking to school but it is really very difficult to walk even more then 500 metres in the bad weather.

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

At this time none. My concern is more for the future and whether that zone will change due to increased population. Would existing students and their siblings remain able to attend?

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

The sheer numbers of children in this community. I was told the school could accomodate 600, and am curious if that will be sufficient for even the next ten years without having to decrease the walk zone. Or if needed, can more modulars be added? Really, this should have been considered and started ten years ago.

Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

The walk zone map needs to be reconsider seriously. It's not humanly possible that you can walk with a 6/7 yrs old along with another little one in stroller specially during winter. And all family can not afford a second car just to pick and drop at school . Did the authority walked before making a realistic walk zone?

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

If not there is a school bus then you really should consider of transit bus 153 that runs in both sides and more frequent .

For the New Brighton/Copperfield middle school the walk zones are great my only concern is the intersection of Copperfield Blvd and Mciver Blvd is a 2 lane each way road with turn lanes for every direction. It is a very busy and dangerous road, I believe and many people I have talked to also agree that there needs to be a traffic light there before the school opens to make it safe for the children of Copperfield to cross McIver.
