Q3: After viewing the walk zone for your community, what questions do you still have regarding the designated zone?

Are these finalized walk zones?

In Saddleridge parents will drive their child 6 houses down the block to drop them off at the bus stop. If the walk zone is to big there will be major congestion at the schools due to parents driving their children to school

Q4: Is there anything else we need to consider regarding walk zones as we move forward?

In a community where parents drive their children to both school and the bus stop there will be major congestion to access the schools due to this. Very few children actually walk anywhere in this community. Unfortunately we need to have more busses to help eliminate this issue.
